## Skills:

**Languages:** Java, JavaScript, SQL, React, Css

**Technologies & Tools:** React.js, Git and Github

## Project Work Ability

### Image Search Generator Application | [Live Link](#) |

React

- Developed to provide users with a seamless and efficient way to search for high-quality images from the Unsplash database.
- Built a responsive web application using React to fetch and display images based on user queries, integrating Unsplash's API for data retrieval.
- Implemented React hooks and state management to handle user input and API responses, ensuring a dynamic and user-friendly interface

### Notes application | [Live Link](#) |

Html | css | javascript

- Designed and implemented the user interface using HTML and CSS, focusing on a clean and intuitive layout for optimal user experience
- Leveraged the Web Storage API, specifically the localStorage object, to enable persistent storage of notes within the browser
- Included functionalities such as search and filter options to facilitate easy navigation and organization of notes

---

## Education

### Prathyusha Engineering College

Dec 2021 - May 2025

B.E. in Computer Science and Engineering

**CGPA: 8.66/10**

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms.

### Jaya Matric HR SEC School

Grad 2021

**percentage: 82**

## Awards and Certificates

- **SQL at HackerRank:** solve several sql problem and gained Five star batch
- Web development on Udemy
- vision control on Udemy
